Summary

GIS analyst with field experience applying geospatial tools to watershed management, invasive species monitoring, and land restoration across federal, state, and municipal contexts — skilled at translating ground-level observations into mapped, actionable data for agency and community stakeholders.

Education

CUNY Hunter College

M.S. Geoinformatics

New York City, NY

2025 – Present

Bishop's University

B.Sc. Computer Science | Minor in Business Administration

Sherbrooke, QC, Canada

2019 – 2024

- Teacher's Assistant, Computer Organization and Logic Design: mentored students and facilitated lab troubleshooting sessions.

Experience

Vermont Youth Conservation Corps

Richmond, VT

Conservation Crew Leader

May – October 2025

Conservation Crew Member

June – August 2024

- Managed cross-agency coordination between VYCC and project sponsors (VT Dept. of Forest, Parks & Recreation; Dept. of Environmental Conservation) across concurrent multi-site projects.
- Supervised and mentored a crew of 6–8, delivering skills training and structured feedback to build capacity and develop future team leaders.
- Led watershed protection, trail, and carpentry projects: built check dams and retaining gardens to reduce lake runoff, and delivered a fully accessible remote campsite at a State Park.
- Used ArcGIS Field Maps to track invasive species removal progress and map water chestnut spread on Lake Champlain in partnership with the Dept. of Environmental Conservation.
- Built rock check steps and an armored trail crossing on the Appalachian Trail with the Green Mountain Club; developed leadership through a rotating Crew Leader of the Day role.

City Parks Foundation

New York, NY

Outdoor Educator Intern

April – May 2025

- Designed and led environmental education programming for K–8 students on local habitats, species life cycles, and watershed conservation.
- Facilitated field water-testing experiments, introducing students to scientific methodology and environmental monitoring.

Southwest Conservation Corps

Durango, CO & Sarasota, FL

Conservation and Disaster Response Member

September – November 2024

- Conducted site assessments for Beaver Dam Analogues on the Mancos River at Mesa Verde NP to model groundwater retention and erosion reduction strategies.
- Delivered fuels management, accessible infrastructure, and visitor facilities at Canyon of the Ancients NM with BLM and the Ancestral Lands Conservation Corps.
- Coordinated route planning and managed a high school crew to construct a new accessible biking trail with the Ridgway Area Trails Association.
- Deployed with AmeriCorps Disaster Response in Sarasota and Tampa, FL: muck-out, roof tarping, damage assessment, and wellness visits to at-risk communities.

Almod Diamonds Ltd

New York, NY

Help Desk Intern

January – March 2019

- Standardized office IT infrastructure by building and deploying a Windows 10 workstation image; documented process for future deployments.
- Redesigned the ticketing system to improve problem reporting accuracy and accessibility for non-technical staff.

Openface Internet Inc.

Montreal, QC

Service Delivery Intern

July – August 2019

- Coordinated with ISPs to align customer project timelines; audited contracts database and created communication templates to streamline team workflows.

Skills & Certifications

GIS & Technical: ArcGIS Pro, ArcGIS Field Maps, ArcPy, IPSS, Python, C, C++, Java, SQL, Windows, Linux

Certifications: Wilderness First Aid, CPR

Other: Fluent in French | Stakeholder Coordination | Technical Documentation | Crew Leadership | Environmental Education | Logistics Planning
